KEOKUK CIVIL SERVICE COMMISSION MEETING
JUNE 26, 2017

The Keokuk Civil Service Commission met in Council Chambers on Monday, June 26, 2017. Present were Chairman Pat Hogan, Lee Ann Shafer-Smith, Lisa Jeffers, City Clerk Jean Ludwig and Police Chief Dave Hinton.

Chairman Hogan called the meeting to order at 9:00am.

Chief Hinton presented a list of candidates that recently passed regional testing. Over 80 people took out applications. After the testing process, 16 people made the list. Chief Hinton said if the open positions in the department could not be filled from the list, the City may have to hold its own test.

Hinton said four of the candidates on the list had veteran status and two were currently under the City’s age standards for hiring. A team from our Police Department went to the testing to observe how candidates performed. Currently, eight agencies will be able to use the new list.

He said there is a trend whereby law enforcement is not having near as many people apply for testing, therefore, there are less candidates available to fill jobs. Due to the hours, pay and other reasons, it’s difficult to compete with other job sectors.

The Chief said after selecting a candidate, and before hiring, the Keokuk Police Department will perform more testing.

Lisa Jeffers made a motion to approve the list of 16 candidates. Lee Ann Shaffer-Smith made a second to the motion. All were in favor. Motion approved.

Chairman Hogan asked if there was any new business. No new business was presented.

A motion to adjourn was made by Shaffer-Smith. Second to the motion by Jeffers. All were in favor. Motion approved. Meeting adjourned at 9:08.

Respectfully submitted,

Jean Ludwig

RESOLUTION NO. ______

A RESOLUTION AUTHORIZING THE DEMOLITION
OF THE UNITARIAN CHURCH BUILDING LOCATED AT
228 NORTH 4TH STREET AND SEEKING THE RECOVERY OF THE COSTS OF
DEMOLITION

WHEREAS, The Unitarian Church, located at 228 North 4th Street, is an iconic building within the City of Keokuk, but has remained in a state of disrepair and increasing dilapidation since 2005; and

WHEREAS, The City of Keokuk attempted numerous times to communicate with the owners of the Church, an organization incorporated under the name "Christ Vision Inc." doing business as the "Temple to World Peace, Inc.", and

WHEREAS, The City of Keokuk was forced to declare the building "Unsafe to Occupy" December 29th, 2008, due to the structural hazards, nuisances under Title Five of the Keokuk Municipal Code, and weather protection issues, including holes in the roof and a falling facade; and

WHEREAS, after a breakdown in communications, the City of Keokuk filed complaint against the owners of the Unitarian Church, Christ Vision, Inc., d/b/a Temple to World Peace, Inc., located at 228 North 4th Street, alleging the structure was a dangerous building, a nuisance, and a hazard, in violation of Keokuk Municipal Code with the District Court of Iowa for Lee County at Keokuk; and

WHEREAS, judgment was entered in favor of the City of Keokuk and against the Defendant on December 13, 2016, a copy of which is attached as Exhibit A to this Resolution; and

WHEREAS, the Defendant and owner of the church was granted until March 1, 2017, to reach an agreement with the City of Keokuk for a written plan of abatement of the hazardous conditions, or face demolition of the building by the City; and

WHEREAS, Christ Vision, Inc., d/b/a Temple to World Peace, Inc., nor any other party, abated the hazardous conditions, nor submitted a plan for such abatement, by March 1, 2017, or subsequent to that date; and

WHEREAS, the City, through its City Attorney, attempted to communicate with Christ Vision, through its attorney, following the March 1, 2017 deadline, but received no response; and

WHEREAS, conditions at the Unitarian Church, at 228 North 4th Street, remain hazardous and dangerous, and present a public health and safety risk to the citizens of Keokuk; and
WHEREAS, the Uniform Code for the Abatement of Dangerous Buildings, adopted by reference at Chapter 15.22 of the Keokuk Municipal Code, permits the City to do all necessary work to Repair or Demolish a structure presenting a danger to the community, and further allows the City to recover the costs of such repairs or demolition through the assessment of Liens on the property; and

WHEREAS, the City Council hereby finds that it is, regrettably, more cost effective to demolish the structure than do the work necessary to abate the nuisances and bring the property back into compliance with the code, and without a willing partner to maintain the structure even if such work were completed, believes that there is no acceptable alternative in keeping to its financial and public health and safety responsibilities to the taxpayers and citizens of the City of Keokuk but to demolish the structure;

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF KEOKUK:

THAT, the Mayor, and all necessary employees of the City, take all actions necessary to effectuate the demolition of the Unitarian Church building at 228 North 4th Street, Keokuk, Iowa, and exercising care to comply with state law and regulations, as well as local ordinances, including public bidding for any contracts for demolition; and further

THAT, the Mayor, and all necessary employees of the City, shall take all action necessary and proper to recover the costs of such demolition from the owner of the property, include through the assessment of liens against the property; and further

THAT, that the Mayor, and all necessary employees of the City, take all action necessary to fully implement the Iowa District Court’s Ruling and Judgment, attached as Exhibit A hereto.

JEAN LUDWIG, CITY CLERK
IN THE DISTRICT COURT OF IOWA
IN AND FOR LEE COUNTY AT KEOKUK

CITY OF KEOKUK, 

Plaintiff; 

KECICI000123 

CHRIST VISION, INC,
228 North 4th Street, Keokuk, IA d/b/a
TEMPLE TO WORLD PEACE, INC.
Defendant,

Appearances:

For Plaintiff: Douglas Dorando, Keokuk City Attorney
For Defendant: Curtis Dial

THE ABOVE CAPTIONED MATTER was commenced on April 27, 2016 by citation for municipal infraction issued by the City of Keokuk alleging violations of Keokuk Municipal Code §§ 5.24.020 (1, 8, 9, 10, and 11) and 5.24.020 (4 and 5). Additionally, the citation alleges violations of the Uniform Code for Abatement of Dangerous Buildings Chapter 3, §§ 302 (5, 8, 9, 14, 16, and 17). The defendant, a defunct Iowa Corporation as of the date of the filing, denied the alleged violations.

Overview:

This proceeding is simply the latest chapter of an ongoing set of legal / public disputes regarding the fate of the historic Unitarian Church building located at 228 North 4th Street in the City of Keokuk, Lee County, Iowa. The trial of this municipal infraction case has been continued several times to allow the parties to try to reach a mutually satisfactory settlement of the overriding issues, but no settlement as of the date of trial was reached. The hearing with regard to the municipal infraction commenced on September 29, 2016 and concluded on October 31, 2016.

The court received a substantial amount of witness testimony and documentary evidence during the hearing. Some of this evidence documents the efforts that have been made by a relatively small and dedicated group of community historic preservationists to raise funds and do work on the structure over the past decade. See Defendant’s Ex. C. Also, some of the evidence deals with past interactions between the parties, as well as the current goals of the preservationist community. See submitted documents, arguments, and letters of support. Though this testimony and documentation provides valuable context to explain the current situation, it is not directly relevant to the specific issue that the court has to decide – whether or not the evidence establishes that a municipal infraction exists. No matter what the Court decides regarding the alleged municipal infraction, however, this ruling cannot resolve the fundamental problem presented by this situation.

The historic Unitarian Church is an inspirational, important, and iconic Keokuk landmark which cannot be replaced if it is demolished. See Defendant’s Ex. F. The real problem is that it cannot be either properly repaired or demolished without the infusion of a large amount of money, expertise and resources. It is vital for the parties to understand that finding the resources
to deal with this deteriorating structure is not a legal issue, but rather is a social, business, and political decision for the community and its leaders to make.

The resources currently available to Christ Vision are inadequate to deal with any of the most serious and immediate deficiencies. [If the money had been available, those problems would have already been resolved. Christ Vision and its allies have wanted to restore the grandeur of the building for a long time.] “Punishing” the defendant for the structure’s problems through civil penalties for code violations is a meaningless and counter-productive act. Unless some type of functional public-private partnership can be created or a “white knight” with adequate resources can be found to fund rehabilitation of the structure, the entire burden of dealing with this building will fall to the City and its taxpayers to deal with on their own. Furthermore, the fate of the building also depends on creating a sustainable, long-term, and practical purpose for its future. It is clear that adversarial proceedings thus far have not achieved anyone’s goals. The elements of wind, rain, snow, freezing, and thawing will march relentlessly on until someone with adequate means takes effective action to either fix or remove the structure.

Findings of Fact and Analysis:

The citation in this case alleges several specific violations of the city code with regard to the structure. Based upon the entire record taken as a whole, the court finds that the allegations regarding violations of section 5.24.020 (1) [junk, waste and refuse], (9) [abandoned buildings], (11) [fire hazards] and Section 5.24.020 (4 & 5) [vermin harborage and vermin infestation] were either not proven by clear, satisfactory, and convincing evidence or that the conditions regarding these alleged violations have been addressed by the parties since commencement of this action. This leaves remaining allegations of nuisance 5.24.020 (8) [dangerous buildings] and 5.24.020 (10) [hazards] as the focus of this case.

Keokuk Municipal Code § 5.24.020 (8) declares “dangerous buildings or structures” as nuisances. Likewise, the Municipal Code also declares “hazards” as nuisances.

Hazards are defined as:

Any hazardous thing or condition on the property which may contribute to the injury of any person present on the property. Hazards include, but are not limited to open holes, open foundations, open wells ... See Keokuk Municipal Code § 5.24.020 (10).

The definition of a dangerous building is contained in the Uniform Code for Abatement of Dangerous Buildings which is adopted and incorporated by reference into the Keokuk Municipal Code through Keokuk Municipal Code § 15.22.010. A “dangerous building” is “any building or structure deemed to be dangerous under the provisions of Section 302 of the Uniform Code for Abatement of Dangerous Buildings”. The specific relevant provisions of this code alleged to have been violated are stated as follows:

[A]ny building or structure which has any or all of the conditions or defects hereinafter described shall be deemed a dangerous building, provided such conditions or defects exist to the extent that life, health, property, or safety of the public or its occupants are endangered...

5. Whenever any portion or member or appurtenance thereof is likely to fail, or become detached or dislodged, or to collapse and thereby injure persons or damage property.
8. Whenever the building or structure, or any portion thereof, because of (i) dilapidation, deterioration or decay; (ii) faulty construction; (iii) the removal, movement or instability of any portion of the ground necessary for the purpose of supporting such building; (iv) the deterioration, decay or inadequacy of its foundation; or (v) any other cause, is likely to partially or completely collapse.

9. Whenever, for any reason, the building or structure, or any portion thereof, is manifestly unsafe for the purpose for which it is being used.

14. Whenever any building or structure which, whether or not erected in accordance with all applicable laws and ordinances, has in any non-supporting part, member or portion less than 50 percent, or in any supporting part, member or portion less than 66 percent of the (i) strength, (ii) fire-resisting qualities or characteristics, or (iii) weather-resisting qualities or characteristics required by law in the case of a newly constructed building of like area, height and occupancy in the same location.

16. Whenever any building or structure, because of obsolescence, dilapidated condition, deterioration, damage, inadequate exits, lack of sufficient fire-resistive construction, faulty electric wiring, gas connections or heating apparatus, or other cause, is determined by the fire marshal to be a fire hazard.

17. Whenever any building or structure is in such a condition as to constitute a public nuisance known to the common law or in equity jurisprudence.

See Chapter 3, Section 302 (5, 8, 9, 14, 16, and 17), Uniform Code for Abatement of Dangerous Buildings.

Municipalities, such as the City of Keokuk, in the exercise of their police powers, may declare and abate nuisances by adopting and enforcing reasonable ordinances. Hancock v. City Council of City of Davenport, 392 N.W.2d 472, 475 (Iowa 1986). This case presents an example of the exercise of that authority. In this case the city alleges that the conditions of the Christ Vision building meet those definitions.

The building first came to the attention of city officials in July of 2015. On July 18, 2005 the city sent a notice of nuisance letter requesting the Defendant to address a hazardous condition caused by disrepair of brick corners and moldings (that were falling). See Plaintiff’s Ex. 1.

On December 29, 2008 the City declared the building at 228 North 4th St. as “Unsafe to Occupy” due to structural hazards, nuisance, and weather protection issues. Notices were sent to the city municipal waterworks, Atmos Energy (gas), and Alliant Energy (electric) that the building was not safe for human habitation. See Plaintiff’s Ex. 2.

On April 26, 2010 a grass and weed notice was given to the Defendant by the City. See Plaintiff’s Ex. 3. Apparently, that issue was adequately resolved.

On January 21, 2011 a letter was sent to the Christ Vision board suggesting that the building be demolished and that the City was taking bids from demolition companies in the area. See Plaintiff’s Ex. 4. This letter was followed shortly thereafter by another letter on February 7, 2011 again raising the matter of taking bids for demolition and noting specific conditions of deficiency of windows needing to be covered, the roof caving in, interior problems, and steeples which were not secure and presenting a hazard to passersby. See Plaintiff’s Ex. 5.
The City sent a letter to Mr. Dailey noting its objections to a news interview on WGEM-TV that involved entry into the building. The City warned that the unsafe to occupy notice forbid anyone not working on repair or demolition of the building from entering the structure. The City specifically requested that any interviews in the future take place outside the structure. See Plaintiff’s Ex. 6.

On March 11, 2011 a structural evaluation report was sent to Melanie Wells by engineer Charles S. Bach, Jr. His report indicated several key findings regarding the building’s structural features. Those findings included:

1. **Foundation:** The foundation appears to be sound. No cracks were noted in the exterior walls and no settlement was noted in the roof or wall structures. The rubble foundation is in good condition.

2. **Side Walls:** The side walls are masonry (brick). No cracks suggesting movement are noted in the side walls. Areas over windows or other openings are deteriorated and collapsing. These areas need to be repaired. The entire exterior needs to be tuckpointed and missing brick replaced. The windows, bell tower opening and other openings need to be painted, replaced and refurbished. All steeples need to be refurbished with a new finish, shingles, and louvers.

3. **Roof:** The roof is slate or asphalt shingles over wood sheathing over wood purlins running the length of the building. The roof structure, sheeting, and shingles need to be replaced. Some of the materials may be salvaged. The structure today looks good. No sags in the ridges or valleys. The steeples are straight with no signs of leaning. The structure has been exposed to the weather because of the areas that do not have a waterproof surface.

4. **Floor in Sanctuary:** The floor structure appears sound. When renovation is started a new flooring system needs to be installed. The floor joist may need to be replaced and the building investigated for termites.

**Summary:** The building needs a new roof and repairs to the roof structure, the masonry walls need tuckpointing and repair to damaged areas, all the trim needs painting or replaced, the windows and entrance doors need refurbished, and selected replacement of glass panels. The structure is in remarkably good condition considering its lack of maintenance. I do not notice any conditions that would suggest the possible collapse of the structure. Defendant’s Ex. A.

It is clear from this report that if adequate action had been taken in 2011 (primarily the roof replacement to protect the interior of the building), the situation currently in existence would have been significantly mitigated. Over the past five years, however, the big issue — roof deterioration and its consequences — have taken a progressively severe toll on the structure. Ms. Mahoney testified that the structure has holes in its roof (ceiling), holes in the sanctuary floor), bricks falling from the structure, water in the basement, junk piled in the building, missing windows, damage to the steeple caps, unsecure stones and damage to the front steps. These observations are supported by photographic evidence. See Plaintiff’s Ex. 8.

The Court specifically finds, based upon the entire record taken as a whole, that the building itself, in its current state of disrepair and deterioration is in fact a “dangerous building” as that term is defined by Chapter 302 of the Uniform Code for Abatement of Dangerous Buildings. The UCADB has been adopted into the Keokuk Municipal Code by K.M.C. § 15.22.010. The major problems of the building include large holes in the roof of the structure,
fallen plaster in many parts of the interior of the structure, holes in the sanctuary floor, water in basement areas, fallen bricks, and an assemblage of boards, debris, moldings, and other parts of the structure that have fallen or which have otherwise been scattered throughout much of the structure. These conditions make the old Unitarian Church at 428 N. 4th St. a “dangerous building”. Additionally, several of the conditions, such as falling bricks and other materials, holes in the sanctuary floor, and accumulations of rubble within the building, “may contribute to the injury of any person present on the property” and are, therefore, “hazards” as defined by the municipal code. In its present condition, the building is a nuisance subject to abatement order and a finding that a municipal infraction has occurred and is continuing to occur.

Though the building’s problems are obvious, finding the solution to the dilemma posed is the real problem presented in this case. If the parties decide that demolition rather than rehabilitation of the building must occur, the proposals suggested in the memorandum from Mr. Dailey to Keokuk city officials dated April 25, 2016 embody several meritorious and thoughtful ideas that would help preserve key parts of the history and legacy of the historic Unitarian Church for the Keokuk community and its citizens. See Plaintiff’s Exhibit 7.

ACCORDINGLY, THE COURT ENTERS THE FOLLOWING JUDGMENT:

1. The city has proven that the condition of the property located at 428 N. 4th Street (old Unitarian Church) and owned by the defendant is a nuisance for the reasons stated above and that the municipal infraction of dangerous building / hazards has occurred and has not yet been abated.

2. A civil penalty of $250 is hereby imposed against the defendant. See Iowa Code § 364.22 (10) (a) (1).

3. The civil penalty is suspended subject to compliance with the abatement order.

4. The defendant, or any successor person or entity who assumes ownership of the property without approval of the City of Keokuk, shall abate all significant violations of the municipal code (those making the structure a dangerous building or presenting a hazard). Minimum abatement for compliance under this order shall include the following steps:

a. Replace roof on building in a manner complying with applicable building codes and sufficient to keep rain, snow, and other precipitation out of the interior areas of building in order to protect its contents and to prevent further damage to structure.

b. Secure any portion of structure at serious risk of falling on the ground, sidewalks, or other areas outside the building which present a hazard to passersby or persons in proximity of the building. The exact actions needed to meet this requirement shall be specified in writing by the City of Keokuk through its officers or agents.

c. Remove or repair any hazardous condition within the structure that makes it unsafe to occupy. The exact hazards to be abated under this requirement shall be specified in writing by the City of Keokuk through its officers and agents.

5. Defendant, or any successor owner not prior approved by the City of Keokuk, shall abate the conditions set forth in paragraph 4 above within a period of time set forth

Re: Keokuk CDBG & SRF Sanitary Sewer Improvement Projects

Attached are four (4) originals contracts for Grant Administration for the City’s Sanitary Sewer Improvements project - CDBG Grant and SRF Loan.

The grant administration fee for the CDBG is $22,500 for SEIRPC grant administration services. This amount was written into the CDBG application and is paid for out of grant funds. The SRF Loan Application and administration fee is $12,500. Although it is for the same project, the CDBG and SRF programs have different program requirements that will need to be met, making it necessary for SEIRPC to issue separate contracts for services.

Please sign all copies and keep on original of each for the City and return the other two originals to me, via the enclosed envelope.

If you have any questions regarding these contracts, please do not hesitate to contact me at (319) 753-4302.

Thank you.

2.2 **Conversion Upon Prepayment.** The Company may prepay this Note in whole or in part at any time without penalty upon sixty (60) days prior written notice to Holder. Upon such notice, Holder shall have the right to elect to (a) do nothing in which case it will receive prepayment or (b) convert the portion of the Note which is intended by Company to be prepaid into Units. If Company does not receive written notice of Holder's intent to elect conversion by 12:00 noon on the sixtieth (60th) day after Company sent written notice of its intent to prepay this Note, then Holder shall have conclusively been deemed to have elected the option set forth in clause (a), above.

2.3. **Mandatory Conversion upon Equity Financing.** If the Company shall obtain an equity investment from an investor or a group of investors (the "Investors") in a transaction or related series of transactions of at least $5,000,000.00, not including for such purpose the outstanding principal amount of the Note (an "Equity Financing"), prior to the Maturity Date, then no later than sixty (60) days prior to closing of the Equity Financing, Company shall give Holder notice thereof. Holder shall, at Holder's election, choose to either:

2.3.1 Convert all of the principal and accrued interest on this Note into such number of ownership interests of the type of equity securities (the "Equity Securities") to be issued in the Equity Financing at a conversion rate equal to the lesser of (a) the then applicable Price Per Unit, as defined below, or (b) the lowest price per interest the Equity Securities are issued in the Equity Financing; or

2.3.2 Receive from the Company an amount in cash equal to the sum of the principal amount due and interest then accrued under the Note.

2.4. **Mandatory Conversion or Payment upon Change of Control.** If prior to the Maturity Date, there is a Change of Control (as defined below), the Holder shall, upon thirty (30) days notice, elect to have this Note converted or repaid in one of the following two ways: (a) the Holder may elect to receive from the Company an amount in cash equal to the sum of the principal amount due and interest then accrued under the Note or (b) the Holder may elect to convert this Note plus all accrued interest into Units immediately prior to the closing of such Change of Control. In the event that the Holder does not make an election within sixty days (60) of the notice from the Company, the Company shall determine, in its reasonable discretion, to convert or repay the Note, based upon whether the value of the consideration that would be payable to the Holder in a Change of Control if the Holder converted this Note is greater than the principal and interest on this Note. A "Change of Control" for purposes of this Note shall mean any consolidation or merger of the Company with or into any other corporation or other entity or person, or any other corporate reorganization in which the Company shall not be the continuing or surviving entity of such reorganization or any transaction or series of related transactions by the Company in which in excess of 50% of the Company's voting power is transferred, or a sale of all or
substantially all of the assets of the Company, other than any transaction or series of related transactions which is primarily for the purpose of financing the Company or a reincorporation of the Company.

3. **Conversion Rate.** Except as may be otherwise provided herein, upon any conversion of all or any portion of the Note, the amount subject to conversion shall be converted into that number of Units determined by a conversion rate equal to $15,000.00 per Unit (the "Price Per Unit"). If a partial conversion by Holder occurs, Holder shall surrender this Note to Company in exchange for a new note providing for the payment on the Maturity Date of all remaining principal and accrued interest due and owing subsequent to the conversion upon otherwise identical terms as herein stated. Once all amounts due hereunder have either been converted and/or repaid, then Holder shall surrender this Note, duly endorsed, to the Company and the Company shall be forever released from all of its obligation and liabilities under this Note.
